23 May 2022

Dear Parent/Guardian

Teenage Booster Immunisations: offer of Meningococcal ACWY (MenACWY) and combined Tetanus, Diphtheria and Poliomyelitis (Td/IPV) vaccines to children in Year 10

We are pleased to confirm that these vaccinations will be provided in schools to help protect your child against Tetanus, Diphtheria, Poliomyelitis and four types of meningococcal bacteria (groups A, C, W and Y) that can cause meningitis (inflammation of the lining of the brain) and septicaemia (blood poisoning). These diseases are very serious and can kill, especially if not diagnosed early. Your child is now due these two vaccines before leaving school, so that protection against these diseases will continue in adult life.

Further information from the NHS about these diseases, the vaccines given to protect your child against them, and any side effects is available here:

Td/IPV: <https://www.nhs.uk/conditions/vaccinations/3-in-1-teenage-booster/>

Men ACWY: <https://www.nhs.uk/conditions/vaccinations/men-acwy-vaccine/>

A leaflet about vaccines for young people published by Public Health England can be downloaded here:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/849579/PHE_11490_IMM_young_people_A5_booklet_Dec2019.pdf

We are due to visit your child's school to vaccinate on:

School: The Bourne Academy

Date of Session: Friday 24 June 2022

Unique Session Code: 4chjce

Please complete the online form by: Friday 17 June 2022

to ensure that we have time to check the form and contact you if there are any queries. If you complete the form after this date, we will not be able to immunise your child at the planned school session, and you will need to attend a catch-up clinic at a community venue, which may not be local to your child's school.

This service is provided on behalf on Dorset HealthCare by InHealthCare

- Please complete the online consent form using the following link:

<https://links.inhealthcare.co.uk/dorset-tdm>

Dorset HealthCare

Our vision is to lead and inspire through excellence, compassion and expertise in all we do

- InHealthCare will send a verification code to your email address, to ensure we have your correct details.
- You will be asked a series of health questions for your child. There is space to add further information if your child has a health condition or additional needs.
- We will contact you if we require any further information. Please provide a daytime telephone number if possible.
- If you miss the deadline you can still complete a form but will be offered an appointment for a catch-up clinic at a community venue.
- If you decide you do not want your child to be vaccinated, there is a box on the consent form for you to complete and please do tell us why.

Your child may have already had the Td/IPV vaccine at an Emergency Department if they have attended following a tetanus prone wound. If this is the case, when you complete the online form please let us know when this was given, so we can advise whether the booster is needed.

For children in care you are most likely to have delegated authority to sign consent for the immunisation. If you are uncertain or you do not have delegated authority please speak to the child's social worker as soon as possible.

If you have any problems registering your child online please check our website: www.dorsethealthcare.nhs.uk/schoolageimms including the Frequently Asked Questions section or complete the Contact Us form.

Important information: If your child has any serious illness after you complete the online consent form or for any other queries e-mail us at dhc.immsenquiries@nhs.net . Please note that our operating hours are Monday to Friday 09:00 to 17:00, and we are unable to respond to enquiries outside these hours.

Yours faithfully

Angela Cosser
