

'Steps to ASPIRE' Competency Task 4:
INDEPENDENCE

Task: Planting and growing tomatoes from seeds

By nurturing the growth of tomatoes from seed, you will develop your **Independence**. Watch your tomatoes develop over time, they will grow in size and strength as a response to your nurture. This representation can be compared to your journey at The Bourne Academy - as you will grow and develop in your independence during your time at the Academy.

You can find instructions on the Transition 'confirmed place' page on The Academy website. Please contact us if you are unable to gain access to any of the required equipment for this task (all tomato growing necessities are likely to be found at home). You will find a small envelope enclosed containing your tomato seeds. Open these with care when you are ready to plant them. There is also a tomato growth diary, for you to complete if you wish to do so.

Please return your INDEPENDENCE task by:

Completing the form (found on the school website Transition page), by uploading a photo of the progress of your tomato plant between the 25 - 29 June.

No Later than: Wednesday 29 June.

Please send us photos to update us on the progress of your plant throughout the summer via the same link.

The Bourne Academy, Hadow Road, Bournemouth, Dorset, BH10 5HS.
