- **Ellie House** achieved a B in English Literature, a B in Psychology and a C in Philosophy & Ethics. Ellie has secured a place at Bournemouth University to study Criminology

Mark Avoth, Principal, said *'We are all thrilled with these results. They build on the successes of our 6th Form of the last four years and we are immensely proud of our students. We are particularly proud of our successes within the Technology, Engineering, Photography, Music and Performing Arts departments, where all students entered achieved a higher grade A* to C pass or equivalent. These results are proof of what can be achieved with the combination of students, teachers, parents/carers, all working together to reach the same aims.'*

Mr Dean Taafe, Head of Sixth Form, said *'I am thrilled that all of our Year 13 students, who applied to university, have secured an offer at their first choice university or chosen course of study. It was fabulous to see that all of our leavers were delighted with their achievements and future plans today. Their success is testament to all their hard work and that of staff who have supported them over the past two years. I feel very proud of this young yet successful 6th Form. We are going from 'strength to strength'.*
